Job description

Join our dynamic team as a Backend Web Developer! You'll play a crucial role in designing, integrating, and optimizing web applications. Your focus will be on clean, reliable code with front-end developers that powers seamless user experiences. If you're passionate about backend development, apply now!

Responsibilities;

- Build efficient and scalable server-side systems using Node.js/Nest.js and Express.js/Fastify
- Design and develop REST APIs.
- Implement authentication (session and token), authorization, and data validation.
- Database design using MongoDB or other relational databases.
- Design schemas, perform CRUD operations, and optimize queries.
- Ensure data consistency, security, and scalability.
- Debug and fix bugs, glitches, and performance bottlenecks.
- Optimize code for speed, efficiency, and scalability.
- Collaborate with front-end developers and UI/UX designers.
- Implement security best practices to protect against common vulnerabilities.
- Handle authentication tokens, secure routes, and prevent unauthorized access.
- Stay updated on emerging technologies, libraries, and best practices.
- Experiment with new tools and frameworks to enhance development processes.
- Must be flexible for any technology and company requirements.

Qualifications;

- Node.js/Nest.js and Express.js/Fastify Proficiency:
- Database Knowledge of MongoDB or other NoSQL databases
- API (Restful API) Creation and Integration:
- Knowledge of Security Awareness (JWT, OAuth, etc.) and common security threats (SQL injection, XSS, CSRF)
- Testing and Debugging Skills
- Version Control using Git
- Data Structures and Algorithms (DSA)
- Familiarity with common design patterns used in software development.
- Experience with cloud platforms such as Google Cloud Platform (GCP).
- Knowledge of containerization and orchestration tools (e.g., Docker).
- Familiarity with DevOps practices and CI/CD pipelines.

Job Location: Dhaka**Academic & Other Requirements:**

Minimum Bachelor's degree in Computer Science & Engineering or equivalent.

Experience: Not application who have those skills.**Additional Requirements (Optional):**

- Java, Python, Go Lang,
